

CONE BEAM COMPUTED TOMOGRAPHY

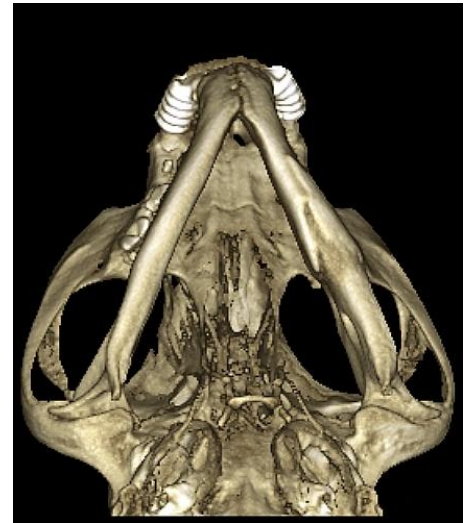

The Hospital for Veterinary Dentistry & Oral Surgery is pleased to announce the addition of Cone Beam CT to the diagnostic tools available at our new facility in Matthews, NC.

Planmed Verity® Cone Beam CT

Planmed Verity® utilizes CBCT technology to provide high resolution volumetric (3D) images at a particularly low radiation dose. Isotropic resolution up to 0.2mm provides significantly improved detail of extremities and maxillofacial structures. Images and 3D Reconstruction are produced within minutes and at a radiation dose 10 times lower than conventional CT.

Diagnostic Imaging Beyond Dentistry!

Our Cone Beam CT is available for referral outpatient diagnostic imaging.

Cone Beam CT Now Available!
